- B.Sc — Information Technology
KG College of Arts and Science
Bharathiar University | 2020 — 2023

LANGUAGES

Tamil, English, Telugu

PROFILE SUMMARY

Result-driven UX/UI Designer with 2+ years of experience crafting intuitive game interfaces, interactive widgets, and responsive web applications. Adept at user research, interaction design, and visual hierarchy optimization — delivering player-centric game UIs and scalable web experiences that align business goals with user needs.

EXPERIENCE

UX Designer — Nytwolf Games

Oct 2025 — Present

- Conducted competitive analysis of 10+ games to map user flows, gameplay patterns, and interaction benchmarks.
- Designed and delivered 20+ in-game widgets with a focus on visual hierarchy, usability, and design consistency — reducing design-to-dev handoff iterations by 30%.
- Shipped game UI screens end-to-end, collaborating cross-functionally with developers to ensure pixel-perfect implementation.
- Led design QA reviews, identifying UI inconsistencies and driving alignment between implemented screens and design specifications.

UX Designer Intern — Nytwolf Games

Apr 2025 — Sep 2025

- Researched and benchmarked 15+ competitor games to identify UI patterns, game mechanics, and player experience best practices.
- Created low-fidelity wireframes and user flows to establish information architecture, screen layouts, and navigation hierarchy.

UX/UI Designer — Leadpro Infotech

Mar 2024 — Mar 2025

- Delivered responsive application designs across web and mobile for 5+ client projects, ensuring seamless cross-device experiences.
- Designed and built web admin interfaces using HTML, CSS, and Bootstrap, improving admin panel usability and reducing task-completion time.
- Collaborated with stakeholders to translate business requirements into wireframes, prototypes, and high-fidelity mockups.

PROJECTS

Web Admin Portal — Cotons AI

Designed a web-based admin portal for managing product purchase data, featuring real-time reporting dashboards, data visualization, and streamlined admin workflows.

Nytwolf Games Website

Designed and shipped a fully responsive company website to showcase the gaming platform, optimizing for performance and mobile-first user experience.

Tegball Tamil Nadu Website

Delivered a responsive client website, translating stakeholder requirements into a clean, content-driven design with intuitive navigation.
